Having survived a posting to the disease ridden West Indies, the young ensign Steevens returned to Europe for further service with the XXth Regiment of Foot of the British Army, known as the “Old and Bold”. After some desultory fighting in the campaign in Holland, during which he was wounded and taken prisoner, Steevens had the good fortune to be exchanged for a Dutch officer and went back to active service. His adventures continued in Egypt and Sicily to Maida, where he was engaged with his regiment at the battle of the same name (1806). Posted to the Peninsular, Steevens was in the light company of his battalion which fought in the company of the 95th Rifles at Vimiero (1808), despite suffering from a severe illness. His command of the light company of his

regiment in the 1809 campaign under Sir John Moore would be very trying for him as the army retreated to fight a rearguard action at the battle of Corunna. As part of the military policy of the British government an expedition to Holland was again sent whilst Napoleon was elsewhere engaged, Steevens had the misfortune to be one of its members, suffered depredations on the “Fever” island of Walcheren. Steevens would then be sent to the Peninsular once again to take part in the later part of the 1812 campaign doing some hard marching, until the battle of Vittoria in 1813, the debris and looting after which he gives a graphic description of. Present at the battle of Sauroren, and the siege of San Sebastian, he passes some touching anecdotes of some of his comrades who were not as lucky as he in avoiding harm during these hard-fought actions. After participating in further engagements that sent the French finally out of Spain, the later years of his soldiering were on garrison duty in Ireland.

“Lieut.-Colonel Steevens received a gold medal for the actions on the Pyrenees (July 28th to August 2nd, 1813); and also the silver war medal, with seven clasps, for Egypt, Maida, Vimiera, Corunna, Vittoria, Nivelles, Nive.” A thoughtful memoir of a widely-respected soldier who saw much

action during the Napoleonic Wars. Author - Charles Steevens - (1777-1861)

With global commitments and combat duty, our armed forces face life-threatening challenges on a daily basis. However, less visible threats also impact the mental health of our military men and women. Experts examine challenges on the battlefield, such as women coming to terms with life after being prisoners of war, or soldiers dealing with mistakenly killing civilians. But life in the armed forces presents less dramatic, daily challenges. Away from the front lines, soldiers have to raise their families, sometimes as single parents. Children have to learn what it's like to be in a military family, and to make sense of war. Gay or lesbian officers cope with a don't ask, don't tell policy. An unprecedented range of contributors—military officers, medical doctors, psychologists, psychiatrists, and professors—take us onto the bases and the battlefields and inside the minds of military personnel who face far greater challenges than most of us ever see in the headlines. These volumes also highlight factors that make members of the military resilient and stable, as well as programs and practices that can ease the psychological burdens of military personnel, families, and children. Readers can better understand how society

views our military and military operations, and how each one of us can play a role in supporting our armed forces.

Military Life: The military family

The Philosopher-reformer of the First Century, A.D.

Have you ever wondered what life is like for the military spouse? Or maybe you 're doing life in the military and the journey feels lonely. The news gives us glimpses of what military life is like, but as with anything else, it doesn 't ever portray the whole picture. It 's confusing, it 's complicated, and it can feel like there are so many moving parts. It 's not a life meant to be navigated alone.

Just like any other life, military life comes with its ups and downs, challenges, and victories. Military life, while it can be tough, gives those who navigate it character and opportunities to adventure and see the good with the hard. Having a better understanding of what military life is like and knowing you 're not alone in the process gives you glimpses of hope and strength to keep walking forward with intention and even flourishing in this life.

Analysis of the strengths, organization, weapons and tactics of the Roman army Constantine inherited and his military reforms. Much of Constantine I 's claim to lasting fame rests upon his sponsorship of Christianity, and many works have been published assessing whether his apparent conversion was a real religious experience or a cynical political maneuver. However his path to sole rule of the Roman Empire depended more upon the ruthless application of military might than upon his espousal of Christianity. He fought numerous campaigns, many of them against Roman rivals for Imperial power, most famously defeating Maxentius at the Battle of the Milvian Bridge. In this new study, Ian Hughes assesses whether Constantine would have deserved the title ' the Great ' for his military achievements alone, or whether the epithet

depends upon the gratitude of Christian historians. All of Constantine's campaigns are narrated and his strategic and tactical decisions analyzed. The organization, strengths and weaknesses of the Roman army he inherited are described and the effect of both his and his predecessors' reforms discussed. The result is a fresh analysis of this pivotal figure in European history from a military perspective.

Alexander The Great

Monty's Army Commander

Lights and Shades of Military Life Edited ...

Life and Times of Stein, Or, Germany and Prussia in the Napoleonic Age

Miles Dempsey, Commander of the British Second Army in the invasion of Europe 1944-45, is almost unknown to the general public. Yet his part in Britains contribution to that campaign was second only to Montgomerys in importance. Dempsey survived two and a half years of bitter fighting as an infantry officer on the Western Front before accompanying his beloved Royal Berkshire Regiment in the little-known North West Persia campaign of 1920-21. In six years he rose from Major to command over half a million men in the largest combined operation in history, and led them to victory a year later. Based on sources which include some of Dempseys previously unpublished work and the views of those who knew him, the book traces his career as a soldier of rare distinction, a talented sportsman and a man of huge charm and shrewd intellect, dedicated to his beloved regiment and ever mindful of the lives of his soldiers. Peter Rostron examines his methods of command and his relationships with Montgomery, his Corps commanders, the Americans and the RAF. It highlights his crucial role in the Dunkirk evacuation, the training of the Canadian Army, and the invasion of Sicily, Italy, and North West Europe, and analyses why his army

performed so brilliantly on D Day. Lastly, Rostron examines his contribution to the campaign in Europe, focussing on the controversial operations of EPSOM, GOODWOOD, Arnhem and the Rhine Crossing.

Despite being an “ imperfect commander ” – and at times even a tactically suspect one – Washington nevertheless possessed the requisite combination of vision, integrity, talents, and good fortune to lead America to victory in its war for independence. At once informative and engaging, and filled with some eye-opening revelations about Washington, the American Revolution, and the very nature of military command, General George Washington is a book that reintroduces readers to a figure many think they already know.

“ The book ’ s balanced assessment of Washington is satisfying and thought-provoking. Lengel gives us a believable Washington . . . the most admired man of his generation by far. ” – The Washington Post Book World “ A compelling picture of a man who was ‘ the archetypal American soldier ’ . . . The sum of his parts was the greatness of Washington. ” – The Boston Globe “ [An] excellent book . . . fresh insights . . . If you have room on your bookshelf for only one book on the Revolution, this may be it. ” – The Washington Times

The authors document a range of biographical and experientially-focused case studies to highlight the range of transitions experienced by individuals leaving the armed forces. This book highlights the challenges faced by those transitioning between military and civilian roles through retirement, redundancy, medical discharge or in constant transition as a Reservist. It addresses themes of significant public interest in the light of the recent restructure of the UK full-time and reserve services and following the Iraq and Afghanistan wars.

General George Washington

Many memoirs of the Napoleonic period are recounting, more or less interesting dependant on the author, of the events of their service interspersed by anecdotes of interesting events, Elzéar Blaze eschewed

that style of reminiscence and left a singular view of his time in the Grande Armée. His memoirs are highly stylised, divided into the 'themes' of military life, and eruditely written by an educated man of the era, who combined wit with a eye for an anecdote. He covers the different aspects of his military career with amusing stories and vivid recollections of the men with which he served, a number of the generals who commanded them, and the enemies that they were fought and were billeted on if they were in occupation; he covers the school of the Vélites, his military training, the marches, camp-life, bivouacs, active campaigning, and the battles fought under Napoleon. Referring to the bravery of some troops in battle he said; "There are men, however, who, endued with extraordinary strength of mind, can coolly face the greatest dangers. Murat, the bravest of the brave, always charged at the head of his cavalry, and never returned without having his sabre stained with blood. This one may easily comprehend; but an extraordinary thing, which I have seen done by General Dorsenne, and by him alone, is to stand immovable, turning his back to the enemy, facing his regiment, riddled with balls, crying, "Close your

ranks!" without once looking behind him. In other circumstances I have tried to imitate him, and turned my back too; but I could not remain in that position: curiosity always obliged me to look the way from which the balls proceeded."

Blaze, like his brother sought out a military life under the eagles of Napoleon, he enlisting in the Vélites of the Imperial Guard, his brother into the medical services of the army. The Vélites were founded as part of Napoleon's further, ultimately unsuccessful, attempts to sway the aristocracy to fall in line and support his rule. The military tutelage in the Vélites was to be supported by private means, which translated into their ranks being filled with the scions of the nobility and wealthy bourgeoisie. Blaze fought as part of Napoleon's invincibles from 1807 until the end of the empire, but continued his service under the returned Bourbons and retired as captain in 1828. An interesting and different view of the Grande Armée.
