

Tudor (Eyewitness)

In the political ferment of the Tudor century one family above all others was always at the troubled centre of court and council. During those years the Dudleys were never far from controversy. Three of them were executed for treason. They were universally condemned as scheming, ruthless, over-ambitious charmers, and one was defamed as a wife murderer. Yet Edmund Dudley was instrumental in establishing the financial basis of the Tudor dynasty, and John Dudley, Duke of Northumberland, led victorious armies, laid the foundations of the Royal Navy, ruled as uncrowned king and almost succeeded in placing Lady Jane Grey on the throne. The most famous of them all, Robert Dudley, Earl of Leicester, came the closest to marrying Elizabeth I, was her foremost favourite for 30 years and governed the Netherlands in her name, while his successor, Sir Robert Dudley, was one of the Queen's most audacious seadogs in the closing years of her reign, but fell foul of James I. Thus the fortunes of this astonishing family rose and fell with those of the royal line they served faithfully through a tumultuous century. see www.derekwilson.com

Examines the evolution, behavior, physical characteristics, and life cycle of all kinds of amphibians.

Text from the international bestseller, originally published as an illustrated book by DK. This was recommended by the American Library Association: "e;the legend of Arthur as you've never seen it"e;; attracted full-length features in the Sunday Times and the TES - and sold almost quarter of a million copies in 14 countries. A beautifully written retelling of the complete King Arthur story, brought dramatically, vividly and very readably back to life. Perfect for all ages from 9 to adult. Authentically based on the iconic medieval work, Malory's 'Morte d'Arthur', it covers all the important episodes:* How Arthur obtained the magic sword Excalibur* His marriage to the noble Guinevere* The coming of the Knights of the Round Table* Merlin and the Lady of the Lake* The evil enchantments of Morgan le Fay* Sir Lancelot's love affair with the Queen* The Quest for the Holy Grail* The last battle* The promise of Arthur as the 'Once and Future King'Reviews of the first edition: - "e;a delightful retelling of the story which manages to bring the story alive and captivate the reader"e; (Goodreads)- "e;This king Arthur book is amazing...although this is aimed at children as an adult King Arthur fan I think this is one of my best King Arthur books as it summarises the Malory version of the legends"e; (amazon.co.uk) - "e;I recommend this book to those who like Arthurian Mythology"e; (amazon.com)- "e;chronicles the legend...simply and accessibly... both entertaining and informative"e; (Dispatch Online)- "e;vividly brought to life"e; (Northwest Evening Mail)

This guide provides the best practices and reference resources, both print and electronic, that can be used in conducting research on literature of the British Renaissance and Early Modern Period. This volume seeks to address specific research characteristics integral to studying the period, including a more inclusive canon and the predominance of Shakespeare.

Revolts, Protests, Demonstrations, and Rebellions in American History

The Reigns of Mary and Elizabeth

The War Before Independence

The story of the most vilified English king, from model of nobility to murderer and monster. Richard III has been written off in history as one of England's evil kings. His usurpation of the throne from his nephew, the story of the 'Princes in the Tower' and generations of pro-Tudor historians ensured his fame as the disfigured murderer portrayed in Shakespeare's eponymous play. Then, in the twentieth century, Richard III found his apologists - those who regarded him as more sinned against than sinning. The process of rehabilitation had begun. This study by an acclaimed scholar of Richard III strips away the propaganda of the centuries to rescue Richard from his critics and supporters alike. Analysing contemporary evidence and recreating the course of Richard's life in it fifteenth-century context, Michael Hicks reveals a complex and powerful figure and charts Richard's bewildering transformation in his own lifetime from a model of nobility, via kingship, to tyrant and monster.

"The gripping story of the wolves the British sent to govern the Irish . . . Miracles abound in this action-packed history." —Kathleen Kennedy Townsend, Former Lieutenant Governor of Maryland
"The Irish people have suffered mercilessly at the hands of conquerors over the past thousand or so years . . . The Normans tried with only limited success to conquer the Irish in 1167, a hundred years after their takeover of England . . . Irish resistance to British rule provoked a lengthy war between the clans of the Irish chieftains and the English soldiers . . . They confiscated the lands once more and instituted such harsh and outrageous controls that it ultimately resulted in the great Irish emigration to the United States.

***Jack Bray tells this thrilling story from an immense wealth of knowledge and such a writer's eye for detail that no one even remotely interested in the period will want to miss it."**—from the Foreword by Winston Groom, New York Times—bestselling author of Forrest Gump*
***"The Irish are a storytelling people and Jack Bray is one of them. And what a story he has written: the centuries of tragedy ending in the building of a great country across the sea, America. Deeply researched and deeply felt, The Tudor Wolfpack and the Roots of Irish America has a brave and musical heart."**—Richard Reeves, national bestselling author of President Kennedy: Profile of Power*
***"Combining the soul of Ireland's ancient storytelling seanchaí with the great talent and skill of an American lawyer-historian, Jack Bray tells a powerful story about the military conquest and colonization of Ireland in the sixteenth and seventeenth centuries."**—Edward J. Markey, United States Senator, Massachusetts*

Experience the world's most significant battles through bold, easy-to-grasp maps. Covering everything from the battlefields of the ancient world to the bomb-scarred landscapes of World War II and beyond, this ebook includes engrossing maps telling the story of history's most famous battles. Using brand new, in-depth maps and expert analysis, see for yourself how legendary military milestones were won and lost, and how tactics, technology, vision, and luck have all played a part in the outcome of wars throughout history. Additionally, historic paintings, photographs, and objects take you to the heart of the action; profiles introduce famous commanders and military leaders and analyze their achievements; and the impact of groundbreaking weapons and battlefield innovations is revealed. Bursting with lavish illustrations and full of fascinating detail, Battles Map by Map is the ultimate history ebook for map lovers, military history enthusiasts, and armchair generals everywhere.

This three-volume work traces the history of revolts and rebellions from the colonial era to the 20th century. * 71 chronologically arranged entries detail the revolts and uprisings that have shaped the history of the United States, with 2–5 subentries that drill down into those histories * Each entry includes an overview essay, followed by entries on related people, groups, organizations, ideas, and places, along with select primary sources * Contributions come from a distinguished group of American historians from across the nation and across historical disciplines * One volume is comprised entirely of primary source documents * Illustrations and photographs show events discussed

Building of the Republic 1689 - 1783

The Reminiscences of Britannia Wellington Peter Kennon of Tudor Place

Discusses the life of Queen Elizabeth I, from her birth to Henry VIII and Anne Boleyn in 1533, her imprisonment by her half-sister, through her reign as one of England's more respected monarchs, to her death in 1603. Reprint.

Victor Hugo's documentary historical novel History of a Crime is an impassioned recording of the December 1852 coup d' tat that brought the usurper he called "Napol on le petit" to power, and sent Hugo into an eighteen year exile. The work was written in the few months following Hugo's flight, but only published in 1877, when Hugo feared a similar takeover by Mar chal Mac-Mahon, who had threatened the dissolution of the republican-dominated Chambre des d put s. Louis-Napoleon Bonaparte (1808-1873) was elected President (December 20, 1848- December 2, 1852) of the Second Republic of France and subsequently accepted the title of the Emperor (December 2, 1852- September 4, 1870), reigning as Napol on III.

The History of Britain and Ireland traces the key events that shaped the societies living in the British Isles from the earliest times to the present day. From the Roman conquest of 43 CE to the Norman conquest of 1066, from the Elizabethan age of Shakespeare to the Victorian age of Charles Dickens, and from the Hundred Years War of the 14th and 15th centuries to the Iraq and Afghan wars of the 21st century, this beautifully illustrated book provides a definitive visual chronicle of the most colorful and defining episodes in British history. The story begins at least half a million years ago when humans started to make their home in Britain. Around 3000 BCE, the first Britons were making their mark on the landscape at remarkable sites such as the stone village of Skara Brae in Orkney and the earliest earthworks at Stonehenge. They entered the annals of recorded history with Julius Caesar's exploratory expedition across the Channel in the late summer of 55 BCE. From then on the small group of islands off the west coast of Europe was never far from the center of world affairs: pioneering the industrial revolution, creating the largest empire the world has ever seen, fighting two world wars in the 20th century, and finally coming to terms with a new status in a fast-changing global economy. The History of Britain and Ireland combines a spread-by-spread narrative of events with a wealth of supporting features on the decisive turning points in the long and fascinating story of the British Isles, and on the outstanding individuals-from Geoffrey Chaucer and Queen Elizabeth I to Charles Darwin and Winston Churchill-who helped shape that story.

Previously unpublished letters and excerpts from contemporary accounts complement an intimate portrait of the personalities, whims, ambitions, and schemes of the Tudor sisters.

The Tudors

Elizabeth I

It's time for the Tudors! This turbulent period in history is known for beheadings, burnings, and bloodshed. Expect no holds barred in this comprehensive reference title for children from the best-selling DK Eyewitness series. Tudor England was lifted by trade and exploration, but blighted by treachery and rebellion. Experience the historic highs and the lows firsthand with Eyewitness Tudor. Hold court with Henry VIII and his long-suffering wives before making merry with high society enjoying their feasts and fashion. Walk among the ordinary folk, including market traders and street entertainers, and decide whether you would have liked growing up in Tudor times. If you want a project pick-me-up to assist with school studies or simply a fantastic read about our colourful past, look no further. This updated edition is more informative and interactive than ever before, thanks to new infographics, statistics, facts, and timelines. The giant fold-out wall chart presenting Tudor times will be a welcome addition to any bedroom or classroom wall.

This volume draws less on documents - charters, messages, resolutions, declarations, instructions, statutes, and treaties - than on those kinds of material in which the personality of the writer plays a greater part - journals, letters, reports, discussions, and reminiscences.The first half of this volume is to show the interest and the continuance of colonial history from the end of the seventeenth century to the outbreak of the Revolution. The lessons of this Aforgotten half-century@ are not to be found in the petty events of each colony, but in the growth of principles of government and of a social and economic system. Hitherto it has been hard to study this important formative period, because the illustrative material was so scattered - perhaps this volume will help to bring out the significance of the growth of an American spirit which made union and independence possible.The history of the American Revolution, which is the subject of the second part of the volume, has usually been written as annals of military campaigns. This volume brings out, from the writings of the time, the real spirit of the Revolution: the ill-judged restrictive system of the home government; the passionate arguments for and against taxation; the fervor of the irregular opposition in the colonies. Patriots, Englishmen, and loyalists speak for themselves, and thus make clear that increasing and unappeasable discontent whcih preceded and explains the Revolution.Our forefathers did interesting things and left entertaining records. The story of our nation=s development is clearer for the suggestions made by these writers. They are prejudiced; they see but a part of what is going on; they leave many gaps; but, after all, they tell the story.The collection was selected and edited in 1900 by

Albert Bushnell Hart, Professor of History at Harvard University, and a well-respected and published scholar.

Meyer's fresh storytelling ability breathes new life into the history of the Tudor family and Tudor England's precarious place in world politics, the critical role religion played in government, and the blossoming of English theater and literature.

Describes farming through the ages, including the equipment, domestic animals, crops, and the future of farming.

The Lives of Mary and Margaret Tudor

Medieval Life

Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

"Britannia Kenyon (1815–1911) was a great-granddaughter of Martha Washington and owner of Tudor Place from 1854 until her death in 1911. Starting around 1890 her grandchildren began prompting Britannia to describe her childhood in Georgetown, her memories of Tudor Place during the Civil War, and recollections of George and Martha Washington and Mount Vernon that had been told to her by her mother, Martha Custis Peter (1777–1854). The grandchildren carefully wrote the information down exactly as Britannia recounted it, sometimes on scraps of available paper, and then carefully recopied the information in legible form. These memories and anecdotes form the manuscript compilation known as The Reminiscences of Britannia W. Kennon. The document, which has never been published before, is a significant primary resource containing eyewitness accounts from someone who lived in Georgetown for nearly 96 years and interacted with a number of significant historical figures. The political and social prominence of the Peter family in Georgetown and greater Washington ensured that Britannia met Presidents of the United States, and dignitaries such as Lafayette, Elizabeth Schuyler Hamilton, and Daniel Webster. Of equal importance is the information Britannia conveys about slaves at Tudor Place. Recalling many of the individuals by name, Britannia describes both Custis dower slaves inherited by her mother following Martha Washington's 1802 death, as well as former Tudor Place slaves who continued to live in Georgetown following the emancipation of slavery and were still residing there in the 1890s when she began to recount her memories of them to her grandchildren. Britannia married Commodore Beverley Kennon, commandant of the Washington Navy Yard. Widowed after only sixteen months of marriage following Commodore Kennon's death aboard the U.S.S. Princeton in February 1844, Britannia returned to Tudor Place with her four-month old daughter Martha and remained for the next sixty-seven years. During that time, she raised two generations of the Peter family and preserved Tudor Place and the significant collection of objects found within the house. The family's collection included pieces her parents acquired at Mount Vernon after Martha Washington's death. Following the publication of an article about Britannia and her collection in Century Magazine, she became a sort of celebrity as the only living great-granddaughter of Martha Washington. In the midst of the wave of nostalgia accompanying the Centennial of 1876, Britannia W. Kennon became a living link to the colonial past as someone who lived with a household of possessions formerly used at Mount Vernon by George and Martha Washington. Once published, The Reminiscences will become a valuable primary source document for researchers and historians of 19th century American history. The edition of The Reminiscences as outlined in this proposal would be an exact transcription of the original copy in the hand of Armistead Peter Jr. It would be checked against the notes taken while Britannia was telling her stories as well as a later typescript version also compiled by Mr. Peter. The published edition also will include annotations with details about the people, places, and events noted by Britannia in the narrative. A biographical essay of author Britannia Kennon would provide an introduction to The Reminiscences and help to contextualize her within the world in which she lived for the first fifty years of her life, as a slave-owning woman of the antebellum south. A second essay describes the creation of The Reminiscences, including the efforts of Britannia's grandchildren to record her stories and memories and Britannia's other endeavors to preserve the family's history and collection"–

Richard III: Classic Histories Series

The Outcast who Became England's Queen

The Untold Story

Deacon Tudor's Diary... a Record of More Or Less Important Events in Boston, from 1732 to 1793, by an Eye Witness, with Introductory Note on the Tudor Genealogy

On an August morning more than five hundred years ago, to the sound of thundering hooves, gunshot, the clash of steel and the cries of men in battle, Richard III, King of England, lost his life and the Plantagenet name came to an end. But what do we really know of the battle which became known as Bosworth Field? How do we separate fact from legend when our knowledge is based on sources which by any reckoning are meagre, garbled or partisan? In this classic account Michael Bennett provides as detailed and authoritative a reconstruction of the battle, and the events that led up to it, as is possible. It is an enthralling detective story uncovering the real facts behind one of the most famous of British battles.

This book brings together a selection of recent, cutting-edge research which, for the first time, challenges commonplace arguments about Mary and Elizabeth's relative successes or failures in order to rethink Tudor queenship.

Explore volcanic rocks, shiny gemstones, colorful minerals, ancient marble, and fallen meteorites and find out how they all came to be. From rough rocks to glittering crystals and everything in between, this stunning collection of facts and photos leaves no stone unturned. Did you know that every rock is a combination of one or more minerals? And that marble was first used in ancient Greece but still forms deep underground as you read this? Or that vibrant paints can be made from minerals, while some precious metals can grow in twisting shapes? Almost 20,000 meteorites land on our planet every year, but what does a space rock actually look like?

Find out how to spot minerals and fossils, discover how crystals grow, and what you need to start your own collection. Part of the best-selling Eyewitness series, which is now getting an exciting makeover, this popular title has been reinvigorated for the next generation of information-seekers and stay-at-home explorers. New photography makes the rocks and minerals pop, revealing their color and texture, while the text gives all the facts and data to turn budding rock collectors into experts.

'Borman approaches her topic with huge enthusiasm and a keen eye for entertaining...this is a very human story of a remarkable family, full of vignettes that sit long in the mind.' Dan Jones, The Sunday Times 'Tracy Borman's eye for detail is impressive; the book is packed with fascinating courtly minutiae... this is a wonderful book.' The Times 'Borman is an authoritative and engaging writer, good at prising out those humanising details that make the past alive to us.' The Observer 'Fascinating, detailed account of the everyday reality of the royals... This is a book of rich scholarship.' Daily Mail 'Tracy Borman's passion for the Tudor period shines forth from the pages of this fascinatingly detailed book, which vividly illuminates what went on behind the scenes at the Tudor court.' Alison Weir 'I do not live in a corner. A thousand eyes see all I do.' Elizabeth I The Tudor monarchs were constantly surrounded by an army of attendants, courtiers and ministers. Even in their most private moments, they were accompanied by a servant specifically appointed for the task. A groom of the stool would stand patiently by as Henry VIII performed his daily purges, and when Elizabeth I retired for the evening, one of her female servants would sleep at the end of her bed. These attendants knew the truth behind the glamorous exterior. They saw the tears shed by Henry VII upon the death of his son Arthur. They knew the tragic secret behind 'Bloody' Mary's phantom pregnancies. And they saw the 'crooked carcass' beneath Elizabeth I's carefully applied makeup, gowns and accessories. It is the accounts of these eyewitnesses, as well as a rich array of other contemporary sources that historian Tracy Borman has examined more closely than ever before. With new insights and discoveries, and in the same way that she brilliantly illuminated the real Thomas Cromwell - The Private Life of the Tudors will reveal previously unexamined details about the characters we think we know so well.

History of Britain and Ireland

Rocks and Minerals

On the morning of August 22, 1485, in fields several miles from Bosworth, two armies faced each other, ready for battle. The might of Richard III's army was pitted against the inferior forces of the upstart pretender to the crown, Henry Tudor, a twenty-eight year old Welshman who had just arrived back on British soil after fourteen years in exile. Yet this was to be a fight to the death—only one man could survive; only one could claim the throne. It would be the end of the War of the Roses. It would become one of the most legendary battles in English history: the only successful invasion since Hastings, it was the last time a king died on the battlefield. But The Rise Of The Tudors is much more than the account of the dramatic events of that fateful day in August. It is a tale of brutal feuds and deadly civil wars, and the remarkable rise of the Tudor family from obscure Welsh gentry to the throne of England—a story that began sixty years earlier with Owen Tudor's affair with Henry V's widow, Katherine of Valois. Drawing on eyewitness reports, newly discovered manuscripts and the latest archaeological evidence, including the recent discovery of Richard III's remains, Chris Skidmore vividly recreates this battle-scarred world and the reshaping of British history and the monarchy.

Take a 500-year journey back in time and experience the Tudor Era through the five senses. Much has been written about the lives of the Tudors, but it is sometimes difficult to really grasp how they experienced the world. Using the five senses, Amy Licence presents a new perspective on the material culture of the past, exploring the Tudors' relationship with the fabric of their existence, from the clothes on their back, roofs over their heads and food on their tables, to the wider questions of how they interpreted and presented themselves, and beliefs about life, death and beyond. This book helps recapture the past: what were the Tudors' favorite perfumes? How did the weather affect their lives? What sounds from the past have been lost? Take a journey back 500 years, to experience the Tudor world as closely as possible, through sights, sound, smell, taste and touch.

The United States was creeping ever closer to independence. The shot heard round the world still echoed in the ears of Parliament as impassioned revolutionaries took up arms for and against King and country. In this captivating blend of careful research and rich narrative, Derek W. Beck continues his exploration into the period preceding the Declaration of Independence, just days into the new Revolutionary War. The War Before Independence transports readers into the violent years of 1775 and 1776, with the infamous Battle of Bunker Hill a turning point in the Revolution and the snowy, wind-swept march to the frozen ground at the Battle of Quebec, ending with the exciting conclusion of the Boston Campaign. Meticulous research and new material drawn from letters, diaries, and investigative research throws open the doors not only to familiar figures and faces, but also little-known triumphs and tribulations of America's greatest military leaders, including George Washington. Wonderfully detailed and stunningly layered, The War Before Independence brings America's early upheaval to a ferocious boil on both sides of the battlefield, and vividly captures the spirit of a fight that continues to inspire brave hearts today.
