

Accounting Business Decision 4th Edition Birt

Now in its Fourth Edition, Kimmel, Weygandt, and Kieso's Financial Accounting: Tools for Business Decision Making has been tested and approved in the classroom. Whether you measure classroom success by improved grades, students who are better prepared for the Intermediate course and their future careers, or by student evaluations at the end of the semester, Financial Accounting delivers real results. "If you are teaching a debit/credit centered financial accounting principles class there is not a better written or organized text. Believe me I have looked. The supporting materials for instructors [are] also terrific." --Nancy Snow, University of Toledo "The textbook is well written with good examples and homework problems. This book is easy to understand, but is rigorous in its coverage of accounting issues." --Paul Brazina, La Salle University, Philadelphia "Best presentation of material in the industry. In addition, Financial, Managerial and Intermediate all flow together for greater coverage and comprehension." --Vince Enslein, Clinton Community College

Get where you need to be with CORNERSTONES OF FINANCIAL ACCOUNTING. Cornerstones delivers a truly unique learning system that is integrated through the entire introductory managerial accounting journey – ensuring students will leave the course with the knowledge they need to be future business leaders. Students are guided through: Building A Strong Foundation: Students need to build a strong

foundation of the fundamentals before they can move forward in this course. The unique Cornerstones approach gets them through the fundamentals FASTER so that they can transition to analyzing and applying concepts. Understanding Relationships: Rather than focusing on concepts in isolation, students should understand accounting as a system and recognize how the end result changes based on how the numbers affect each other. CORNERSTONES aids students in this step as an important part in training them to be good decision makers. Making Decisions: Armed with the knowledge they have gained from working through the other aspects of the Cornerstones approach, students are now given the tools to bring their knowledge full-circle and practice making good business decisions. Students love this approach because it presents materials the way they learn. Instructors love it because it gets students to master the foundations more quickly and allows more time to learn and apply the analysis and decision making of accounting. Accounting Information for Business Decisions is a business-focused introduction to Accounting for all students - not just those intending to be Accounting majors. Lead students through the real-world business cycle and how accounting information informs decision-making. Departing from the traditional approach taken by other introductory accounting textbooks, students apply both managerial and financial approaches within the topics examined in each chapter, to see the direct impact that Managerial Accounting

decisions made on the Financial Accounting processes (and vice versa). The conversational writing engages students in the theoretical content and how it applies to contemporary real-world scenarios. Students follow a retail coffee business in the relatable Cafe Revive running case study integrated into every chapter, to learn about applying accounting issues in the real world. Premium online teaching and learning tools are available on the MindTap platform. Learn more about the online tools cengage.com.au/mindtap
