Now a global bestseller, the remarkable life of Rigoberta Menchú, a Guatemalan peasant woman, reflects on the experiences common to many Indian communities in Latin America. Menchú suffered gross injustice and hardship in her early life: her brother, father and mother were murdered by the Guatemalan military. She learned Spanish and turned to catechistic work as an expression of political revolt as well as religious commitment. Menchú vividly conveys the traditional beliefs of her community and her personal response to feminist and socialist ideas. Above all, these pages are illuminated by the enduring courage and passionate sense of justice of an extraordinary woman.

"I love the native race with a tender love, and so I have observed its customs closely, enchanted by their simplicity, and, as well, the abjection into which this race is plunged by small-town despots, who, while their names may change, never fail to live up to the epithet of tyrants. They are no other than, in general, the priests, governors, caciques, and mayors." So wrote Clarinda Matto de Turner in Aves sin nid, the first major Spanish American novel to protest the plight of native peoples. First published in 1889, Birds without a Nest drew fiery protests for its unsparing expose of small town officials, judicial authorities, and priests who oppressed the native peoples of Peru. Matto de Turner was excommunicated by the Catholic Church and burned in effigy. Yet her novel was strongly influential; indeed, Peruvian President Andres Bvelino Cáceres credited it with stimulating him to pursue needed reforms. In 1904, the novel was published in a bowdlerized English translation with a modified ending. This edition restores the original ending and the translator's omissions. It will be important reading for all students of the indigenous cultures of South America.

With the help of her new friend Roland, Max and Alicia Carver begin to explore the strange circumstances of that death and discover the existence of a mysterious being called the Prince of Mist—a diabolical character who has returned from the shadows to collect on a debt from the past. "Nuestros procesos de pensamiento son tan familiares, tan arraigados, que no podemos imaginar pensar de una manera nueva. Es como si nuestras mentes estuvieran ejecutando un software anticuado que es lento, con muchas fallas y que es improductivo, pero es todo lo que hemos conocido. ¡Necesitamos actualizar el software en nuestras cabezas!" - Sam Chand Algunas personas pensaban que estaban haciendo a Sam Chand "una oferta que no podía rechazar" cuando lo invitaron a hablar en un evento de dos días en el extranjero. Después de todo, estaban pagando por vuelos en primera clase y alojamiento tanto para Chand como para su esposa, además de pagar un generoso honorario. Pero él no aprovechó la oportunidad. Chand tan solo estaba interesado en "el impacto existencial a largo plazo" en los asistentes. El pregunta: "¿Todas las actividades me darán la oportunidad de influir en personas influyentes? ¿Puedo ser parte de una experiencia que deje una marca en el liderazgo, en lugar de tan solo un evento de liderazgo?" En lugar de ganar dinero, Chand estaba interesado en construir relaciones. Él estaba pensando de una manera diferente a como ellos pensaban. Chand señala que nuestras percepciones y patrones de pensamiento determinan nuestras emociones, valores y creencias, lo que influye en cómo respondemos a las personas y los eventos. A veces, ni siquiera somos conscientes de las razones detrás de lo que decimos y hacemos, porque nuestras respuestas pueden estar arraigadas desde la infancia. Pero Chand cree que todos nosotros podemos tener una manera diferente de pensar que nos permita crear un nuevo futuro. Él se ha propuesto ayudar a las personas a pensar más allá de los objetivos específicos, y considerar los objetivos y los resultados clave, desafiarse a sí mismos, hacerse preguntas cruciales y 'actualizar el software' en sus cabezas. A través de este libro, Chand espera ayudar a otros a "pensar de manera más profunda, más clara y más productiva que nunca antes".

Sam Chand te ofrece una manera de desafiarte a ti mismo, hacer preguntas cruciales y 'actualizar el software' en te cabeza, para desarrollar el pensamiento diferente que pueda crear un nuevo futuro. "Our thought processes are so familiar, so ingrained, that we can't imagine thinking a new way. It's like our minds are running antiquated software that's slow, with lots of glitches, and is unproductive, but it's all we've ever known. We need to upgrade the software in our heads!"—Sam Chand Some people thought they made Sam Chand "an offer he couldn't refuse" when they invited him to speak at a two-day event overseas. After all, they were paying for first-class travel accommodations for both Chand and his wife, plus throwing in a generous honorarium. But he didn't jump at the opportunity. Chand was only interested in "the long-term, existential impact" on attendees. He asked, "Will every activity give me the opportunity to influence influencers? And can I be part of a leadership journey instead of just a leadership event?" Rather than monetary gain, Chand was interested in building relationships. He was thinking in a different way than they were. Chand notes that our perceptions and thinking patterns determine our emotions, values, and beliefs, influencing how we respond to people and events. Sometimes, we are not even aware of the reasons behind what we say and do because our responses may be ingrained from childhood. But Chand believes all of us can have New Thinking for a New Future. He has set out to help people move beyond specific goals and consider objectives and key results, challenge themselves, ask crucial questions, and "upgrade the software" in their heads. Through this book, Chand hopes to help others "think more deeply, more clearly, and more productively than ever before."

Overthinking isn't a personality trait. It's the sneakiest form of fear. It steals time, creativity, and goals. It's the most expensive, least productive thing companies invest in without even knowing it. And it's an epidemic. When New York Times bestselling author Jon Acuff changed his life by transforming his overthinking, he wondered if other people might benefit from what he discovered. He commissioned a research study to ask 10,000 people if they struggle with overthinking too, and 99.5 percent said, "Yes!" The good news is that in Soundtracks, Acuff offers a proven plan to change overthinking from a super problem into a superpower. When we don't control our thoughts, our thoughts control us. If our days are full of broken soundtracks, thoughts are our worst enemy, holding us back from the things we really want. But the solution to overthinking isn't to stop thinking. The solution is running our brains with better soundtracks. Once we learn how to choose our soundtracks, thoughts become our best friend, propelling us toward our goals. If you want to tap into the surprising power of overthinking and give your dreams more time and creativity, learn how to DJ the soundtracks that define you. If you can worry, you can wonder. White Fang is a novel by American author Jack London and the name of the book's eponymous character, a wild wolf-dog. Much of White Fang is written from the viewpoint of the titular canine character, enabling London to explore how animals view their world and how they view humans. White Fang examines the violent world of wild animals and the equally violent world of humans. The book also explores complex themes including morality and redemption. The story begins before the three-quarters wolf-dog hybrid is born, with two men and their sled dog team on a journey to deliver a coffin to a remote town named Fort McGurry in the higher area of the Yukon Territory, Canada. The men, Bill and Henry, are stalked by a large pack of starving wolves over the course of several days. Finally, after all of their dogs and Bill have been eaten, four more teams find Henry trying to escape from the wolves; the wolf pack scatters when they hear the large group of people coming. The story then follows the pack, which has been robbed of its last prey. When the pack finally brings down a moose, the famine is ended; they eventually split up, and the story now follows a she-wolf and her mate, One Eye. The she-wolf gives birth to a litter of five cubs by the Mackenzie River, and all but one die from hunger. One Eye is killed by a lynx while trying to rob its den for food for the she-wolf and her cub; his mate later discovers his remains near the lynx's den. The surviving cub and the she-wolf are left to fend for themselves. Shortly afterward, the she-wolf kills all the lynx kittens, prompting the lynx to track her down, and a vicious fight breaks out. The she-wolf eventually kills the lynx but suffers severe injury; the remaining cub is devoured over a period of seven days.
