Century examines literature in its connection to virtue and moral excellence. The author is concerned with literature as the teacher of virtue. The current crisis in the humanities, Mark William Roche argues, may be traced back to the separation of art and morality. (“When the distinction between is and ought is leveled,” he writes, “the power of the professions increases.”) The arts and humanities concern themselves with the fate and prospects of humankind. Today that fate and those prospects are under the increasing influence of technology. In a technological age, literature gains in importance precisely to the extent that our sense of intrinsic value is lost. In its

elevation of play and inexhaustible meaning, literature offers a counterbalance to reason and efficiency. It helps us grasp the ways in which diverse parts form a comprehensive and complex whole, and it connects us with other ages and cultures. Not least, great literature grapples with the ethical challenges of the day.

"An Occurrence at Owl Creek Bridge" (1890) is a short story by the American writer and Civil War veteran Ambrose Bierce. Described as "one of the most famous and frequently anthologized stories in

American literature", it was originally published by The San Francisco Examiner on July 13, 1890, and was first collected in Bierce's book *Tales of Soldiers and Civilians* (1891). The story, which is set during the American Civil War, is known for its irregular time sequence and twist ending. Bierce's abandonment of strict linear narration in favor of the internal mind of the protagonist is an early example of the stream of consciousness narrative mode. men and a company of infantrymen are present, guarding the bridge and carrying out the sentence. Farquhar thinks of his wife and children and is then distracted by a noise that, to him, sounds like an unbearably loud clanging; it is actually the ticking of his watch. He considers the possibility of jumping off the bridge and swimming to safety if he can free his tied hands, but the soldiers drop him from the bridge before he can act on the idea. Christopher John Francis Boone knows all the countries of the world and their capitals and every prime number up to 7,057. Although gifted with a superbly logical brain, Christopher is autistic. Everyday interactions and admonishments have little meaning for him. At fifteen, Christopher's carefully constructed world falls apart when he finds his neighbour's dog Wellington impaled on a garden fork, and he is initially blamed for the killing. Christopher decides that he will track down the real killer, and turns to his favourite fictional character, the impeccably logical Sherlock Holmes, for inspiration. But the investigation leads him down some unexpected paths and ultimately brings him face to face with the dissolution

of his parents' marriage. As Christopher tries to deal with the crisis within his own family, the narrative draws readers into the workings of Christopher's mind. And herein lies the key to the brilliance of Mark Haddon's choice of narrator: The most wrenching of emotional moments are chronicled by a boy who cannot fathom emotions. The effect is dazzling, making for one of the freshest debut in years: a comedy, a tearjerker, a mystery story, a novel of exceptional literary merit that is great fun to read.
