44 Insider Secrets That Will Get You Hired

What College Didn't Teach You About Getting Hired

In this book I'll share with you the three secrets I learned launching a successful online job search and landing a well-paid position in less than 30 days. I am not a professional recruiter. I don't have an HR certification nor am I a New York Times bestselling authority. I'm just like you. I had a job, lost it, then had bills and life banging on my apartment door. I tried the traditional job search strategies: cover letter, networking, multiple interviews, etc. It didn't work. What I will explain in this book did work. You too can repeat my success by learning the three secrets for online job search: not far-reaching theories you may find in the traditional job search book--but practical, proven methods to achieve the only result that matters: a job. If you are a former employee or about to be, or one of the millions of the long-term unemployed, this eBook can be your guide to finding that next job quickly. You will learn how to:--Effectively search for jobs that are "hidden" from the major online career boards like Monster and CareerBuilder--Use unconventional search strategies, including social media sites (Facebook, Twitter, etc.), to find the right job--Learn how to maximize your search power by combing results from Google and social media sites

Finding the right job, keeping it, advancing, and eventually achieving a leadership position is difficult, especially in challenging economic times. However, Hal Eastman retains an upbeat belief it is still possible, but that your success is highly dependent on an enterprising job search and on utilizing the very different skills needed at each career stage. These valuable and pragmatic insights, based on actual executive experience, cut through the theoretical chaff of much of today's how to business literature. From graduates looking for their first jobs to unemployed job seekers, new managers, and even CEOs, there's something here for everyone, whatever the current stage of a career. You'll also find sage advice on leading a balanced life, even in times of economic challenge and unprecedented change, with their accompanying job stresses. All of this makes this little handbook highly worthwhile reading.

"A no-holds-barred view of career management in a turbulent world . . . provides a reality-based perspective that should be of value to all who read [it]." —Len Schlesinger, president emeritus at Babson College, Baker Foundation professor, Harvard Business School In these uncertain times, *The Job Search Navigator* is a reliable guide to every step of the twenty-first-century job hunt, whether readers are laid off, wanting to change careers after surviving cutbacks, or seeking a better full-time gig in a stagnant marketplace. Author Matt Durfee writes from the perspective of someone who has both recruited for some of America's biggest companies and navigated his way through nine of his own job losses. The book combines practical real-world perspectives with the technical knowledge job seekers need in order to excel at every aspect of their searches. Drawing on the knowledge Durfee accumulated through his own experiences, searches, and big-brand corporate hiring responsibilities, *The Job Search Navigator* abandons the "clinical approach" of many other career-advice books. Instead, Durfee gives easy-to-follow strategies and, perhaps more importantly, recounts in illuminating detail the kinds of mistakes that led him to develop these strategies. "From the strategic to the emotional to the tactical—this is one of the most practical and useful books on career management I've read in a very, very long time." —L. Kevin Cox, chief human resources officer, American Express Company "Matt's expertise in this space is unmatched. We live in a world where constant reinvention is the rule and *The Job Search Navigator* is essential reading for those who want to take

control of their career trajectory.” —Scott Westerman, executive director & associate vice president for alumni relations, Michigan State University

Getting hired quickly isn't as easy as it once was. While the traditional cause of unemployment is grouped under the heading of a "bad economy," there now exists a new impediment to getting hired: online recruitment. Why has Internet job hunting or online recruitment made it so much harder to getting hired? Before the widespread use of online recruitment, employers usually received a handful of job applicants per job posting. Today, it's quite common for employers to obtain 200 applicants per job posting! With increased competition, the difficulty of getting hired increases. You can overcome the roadblocks that online recruitment places in your path to a new job. The goal of this book is to teach you a simple, divide-and-conquer method that will help you use online recruitment successfully. In addition, it will also teach you how to write a highly searchable online résumé and how to correct problems when they arise in your job search campaign.
